EOC-004

**Introduction to the Incident Command System
(FEMA ICS-100.b)**

COURSE SYLLABUS

Subject Category: Emergency Operations

Schedule: N/A

Course Length: Approximately 3 hours

Medical Approval: None

Delivery Method: Online

Location: N/A

(<http://training.fema.gov/emiweb/is/is100b.asp>)

Course Prerequisite: None

Retraining/Recertification: None, recommended annually

Course Purpose: ICS 100.b, Introduction to the Incident Command System, introduces the Incident Command System (ICS) and provides the foundation for higher level ICS training. This course describes the history, features and principles, and organizational structure of the Incident Command System. It also explains the relationship between ICS and the National Incident Management System (NIMS).

Course Objectives: To familiarize members of the LBNL Emergency Operations Center (EOC) with Incident Command System (ICS) concepts and principals, management characteristics, organizations and operations, and organizational element titles and roles.

Training Compliance Requirement: LBNL Emergency Services Training Program Plan, EPIP No 003-6

Instructor: N/A

Course Instructional Materials: Online course materials

Course Handouts: N/A

Participant Evaluation: N/A

Written or Practical Exam: Successful completion of a multiple choice examination is required to receive a certificate. In order to receive LBNL credit, you must email your certificate to aeboynton@lbl.gov.
